NanoLite - The World's Smallest Adhesive Light

Thrifty Jinxy's
Valentine's Day Gift Guide & Giveaways

For a very inexpensive, very useful Valentine's Day gift that even fits the requirement of celebrating the color RED, try the **NanoLite**.

NanoLite is the world's smallest adhesive light. It assists your loved ones when getting into their home or car at night. The tiny light adheres to any key and is activated by the simple push of a button, radiating a bright red light whenever needed. includes a long-life lithium battery.

NanoLite sells for only \$3.99 and is available on Amazon.com.

Giveaway: One lucky Thrifty Jinxy reader will win their own **NanoLite**. To enter, check out **NanoLite here** and then come back and fill out the form below. Full rules for the giveaway (including ways to gain extra entries) **can be found here**. Entry deadline is 11:59 PM CST 2/14/09.
